ABOUT ME

Entrepreneur, artist, and leader driven by a passion for innovation and human impact. I combine a strong analytical background in Data & AI with deep creative agility, excelling at structuring ambitious projects from ideation to execution. With a natural mindset for product management and strategic growth, I thrive on translating abstract ideas into concrete solutions and high-impact visual prototypes. Highly adaptable and cross-functional, I am dedicated to bridging the gap between cutting-edge tech and business value while building lasting trust with global partners.

Technical skills

- Product & Leadership: Product Management, Product Discovery & Prototyping, Go-To-Market (GTM) Strategy, Agile/Scrum Methodologies, Cross-functional Leadership, Stakeholder Management, Change Management, Risk Management.
- Data & Business Intelligence: Data Analysis, Business Intelligence (BI), Data-Driven Decision-Making (DDDM), Data Storytelling, Data Marketing, Reporting & KPI Analysis, Conversational AI Platforms.
- AI, LLM & Agentic Tools: Agentic AI (ADK, MCP, A2A, n8n), AI-Native IDEs & LLMs (Gemini CLI, Cursor, Lovable, Replit Agent, Claude, Gemini Code Assist, Antigravity), AI/ML Platforms.
- Technical Stack & Cloud: Google Cloud Platform (GCP), SQL/NoSQL, Python, DevSecOps (Docker, Kubernetes, Terraform, Ansible, ELK), GitHub (Actions, Copilot), Looker Studio, Power BI, Google Analytics, Jira.

Soft Skills

- Entrepreneurial Mindset, Creativity, innovative, highly adaptable, and driven by a zero-to-one execution focus.
- Communication & Storytelling: Ability to distill complex technical concepts into clear, persuasive, and high-impact narratives for diverse stakeholders.
- Leadership & Trust: Trustworthy, proactive, and cross-functional collaborator adept at navigating ambiguity and building team consensus.
- Analytical Agility: Quick learner with a strong aptitude for synthesis, problem-solving, and continuous technical growth.

EXPERIENCE

Customer Engineer Cloud & Data

Google CLOUD, Paris — 09/2025 – Present

- Understand customers' business and technical needs and identify how Google Cloud solutions can address their challenges.
- Drive the end-to-end product lifecycle of generative and agentic AI solutions for major enterprise partners (e.g., Bouygues Telecom, France Travail). Design multimodal data environments and conversational workflows using BigQuery Agent (BQ Agent, ADK, MCP, Cloud run, Agent Engine, Vertex AI) and Conversational Analytics.
- Demonstrate and prototype the integration of Google Cloud products in customer and partner environments by creating Proofs of Concept (POCs), including interactive demonstrations illustrating how autonomous AI agents can solve specific business issues.
- Replace static Product Requirements Documents (PRDs) with live demos to show partners what is possible, validating desirability before significant engineering investment.
- Support customers technical teams in deploying, configuring, and optimizing solutions.
- Mitigate LLM hallucinations and reasoning inconsistencies by architecting robust relational data schemas and semantic mapping, ensuring AI-generated insights (e.g., telecom outage reports and incident imagery) meet strict production-grade standards.
- Accelerate product desirability and de-risk engineering investments by using AI-native tools (Gemini CLI, Cursor, Lovable, Replit, Antigravity) to rapidly transform abstract requirements and documentations into functional full-stack applications in days.
- Act as a strategic bridge between enterprise clients, sales executives, and product engineering teams. Design high-impact data storytelling scenarios to distill complex technical architectures into concise, high-ROI business narratives that eliminate customer roadblocks, influence product roadmaps, and drive executive decision-making.
- Really Good communication and storytelling abilities; able to distill complex topics into concise narratives that drive clarity and alignment.

SITE RELIABILITY ENGINEER

Société Générale, Paris — 06/2023 – 08/2025

- Supervision of a strategic migration project impacting over 3,000 IT assets, resulting in a 40% reduction in operational costs and a 95% success rate.
- Led Scrum ceremonies (Daily Standups, Sprint Planning, Retrospectives) for an international SRE squad, fostering a culture of continuous improvement and transparency.
- Facilitated PI Planning and synchronized with other "tribes" in a complex matrixed environment to manage dependencies and avoid capacity incidents.
- Redesigned internal operational workflows using BI tools(Power BI) and automation(Devops, ansible, Github Actions, Terraform), improving developer experience on our workflows and team output across the organization.
- Navigated cultural and technical ambiguity to build team consensus, ensuring all members remained aligned on the PI/Sprint Goal in high-pressure environments.

PROJECTS & CERTIFICATIONS

CEO Brand IAM

Conceived and structured a multidisciplinary luxury house from scratch, transforming cultural heritage concepts into innovative collections, global brand identity, and scalable business models. (Business Plan, Pitch Decks, User Experience, UI, Product Strategy).

Co-Founder Charitative Association BlueSky

launched an educational program securing scholarships and school supplies for 100+ children annually across Canada and Cameroon, Generate and manage 3M+ FCFA per campaign and driving a strategic partnership with Bénis de l'Éternel (Canada) to eliminate barriers to education.

Co-Founder KENS GAME

Co-Founded and orchestrated a multidisciplinary sports & entertainment event in Cameroon to elevate youth talent, scaling attendance to 1,000+ live spectators and 30,000+ digital impressions while managing 15+ corporate sponsors, 30+ teams, and an innovative professional mentorship for youth(ages 14–35).

Google Professionnal Data Engineer

INSIDE LVMH Certificate

IBM DevOps & Software Engineering Capstone

EDUCATION

Master DATA & AI (Digital & Technological Transformation)
HETIC, France — Expected Graduation: 07/2027

Bachelor DATA & Intelligence Artificielle, AI
HETIC, France — Graduated: 08/2025

INTERESTS

- Innovation & Technology: leadership, Entrepreneurship (Luxury & Identity Brands), Personal Investments, Product Design.
- Arts & Culture: Opera & Lyric Songs, Theater & Performance Arts (Conservatory of Fontainebleau), Culinary Arts.
- Sports: Basketball (Silver Medal, National Championship).
